Linux Foundation Announces OpenSearch Software Foundation to Foster Open Collaboration in Search and Analytics

THE LINUX FOUNDATION | 16 SEPTEMBER 2024

The **OpenSearch Software Foundation** is a project of The Linux Foundation.

The mission of the OpenSearch Software Foundation is to provide infrastructure and other resources to enable the **long-term sustainability** of the OpenSearch open source project and the OpenSearch ecosystem. The Foundation provides transparent governance and other resources to enable the long-term sustainability of the OpenSearch open source project and the OpenSearch ecosystem.

How to get involved with OpenSearch

OpenSearchCon and User Groups

OpenSearchCon

- OpenSearchCon India
  June 15-16, Mumbai
- OpenSearchCon North America
  September 22-24, San Jose, California
- OpenSearchCon 2027
  Early planning stages

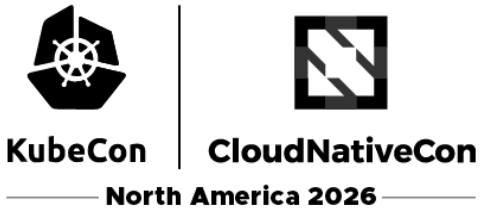

- Karlsruhe-Pforzheim
  June 10
- Vienna
  June 10
- Seoul
  June 18
- Chennai
  June 20

OpenSearch at Events

2026 OpenSearch new features

A couple of features shipped in the two (3.5 and 3.6) releases done in 2026

- **Prometheus / observability integration**
- **Query Insights enhancements**
- **Bulk SIMD FP16 vector search**
- **Search Relevance Workbench**
- **Vector prefetch**

2026 looking ahead

- Long-term support (LTS)
- Training and Certification program launch
- Roadmap clarity and process improvements
- Foundation member expansion
- Vendor-neutral foundation = continued community contributions
